

Featherweight® Endoscopy Workstations

Innovation Designed Around You

**PHS
WEST
INC.**

“Most of our customers are repeat customers. They are repeat customers because we create solutions for their unique applications. We accomplish solutions by taking the time to explore and understand their application to ensure all their needs are met.”

-Molly Jorgensen, *Sales and Design Consultant*

Endless Customization Options

Our Featherweight® procedure room carts are the perfect solution for your endoscopic equipment and supplies.

More than 20 years ago, PHS West, Inc. became the innovators of the Ergo-Express® Motorized Endoscopy Cart.

Featherweight® Endoscopy Cart

The modular design of all Featherweight® Endoscopy Carts offers the flexibility to strategically position equipment and supplies for convenient access during procedures. There are literally thousands of potential design configurations to make sure we create the perfect cart design for your specific application.

Featherweight® Motorized Endoscopy Cart

As a mainstay of our motorized travel carts, the Featherweight® Motorized Endoscopy Cart has everything you need and nothing you don't. A retractable drive provides flexibility to transport and position your cart with or without power.

Featherweight® SPECS™ Endoscopy Travel Cart System *Specific Procedure Endoscopy Cart System*

No longer do you need to transport all of your supplies on a single cart. Hitch up the SPECS™ trailer cart to your SPECS™ motorized equipment cart and go! The Featherweight® SPECS™ Endoscopy Travel Cart System has the smallest footprint while being the most organized option for any travel procedure.

Featherweight® Endoscopy Carts

Featherweight® Endoscopy Carts are custom built to be the perfect fit for your needs. Whatever your design requirements are, PHS West, Inc. Featherweight® Endoscopy Carts are the solution. Over 20 years ago, PHS West, Inc. became the innovators of the Ergo-Express® Motorized Endoscopy Cart. The Featherweight® Endoscopy Carts are designed to be 100% custom built so that we can meet your department's exact equipment, supply, budget requirements, footprint, and most importantly, to meet your specific application needs.

Endoscopy cart design has historically been one cart one design, prior to PHS West, Inc. entering the market with the Featherweight® Endoscopy Cart line. Our modular cart design allows you to design the perfect cart for your specific application.
